Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 14-28 are again rejected under 35 U.S.C. 102(e) as being anticipated by Cox et al. US Patent No. 7,130,835.

Cox et al. disclose apparatus and methods of use for providing refractive corrections of a patient's eye, the apparatus comprising: a treatment laser generating ablative laser beams; a diagnostic system such as wavefront sensor, aberrometer, pachymeter, topographer, and tonometer; and an electronic data processing and control system for controlling refractive correction of the eye as claimed (see Figures 1-4).

Response to Arguments

Applicant's arguments filed on April 13, 2007, have been fully considered but they are not persuasive. The applicant argues that US Patent No. 7,130,835 to Cox et al. (hereinafter Cox), fails to teach "the step of performing a graphic simulation of an eye ablation in the form of a graphic visualization" as recited in the independent claims 14

and 25. He further argues that Cox fails to teach an apparatus configured to provide any overlaying of aberrometry, topography, and pachymetry of the patient's eye as recited in claim 25.

In response to the first argument, Cox teaches an ophthalmic treatment method comprising the steps; of determining optical and geometrical data of the eye (see col. 3, lines 49-58); and performing a graphical simulation of the ablation in the form of graphical visualization as claimed (see col. 5, lines 4-11). With respect to the second argument, Cox teaches a computer system configured for analyzing/overlaying the ocular data such as the aberrometry, topography, pachymetry and others known in the art (see col. 18, lines 41+).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
